8. LOSS PER SHARE

The calculation of the basic and diluted loss per share attributable to the owners of the Company is based on the following data:

	Three months ended		Nine months ended	
	30 September		30 September	
	2019	2018	2019	2018

Weighted average number of ordinary shares for the purpose of diluted loss per share	<u>233,462</u>	<u>206,778</u>	<u>233,462</u>	<u>206,778</u>

The computation of diluted loss per share for the nine months ended 30 September 2019 and 30 September 2018 does not assume the exercise of the Company's share options, since it would result in a decrease in loss per share for the period which is regarded as anti-dilutive.

MANAGEMENT DISCUSSION AND ANALYSIS

Financial Performance

For the nine months ended 30 September 2019, the Group recorded a revenue of approximately HK\$2,746,000 (nine months ended 30 September 2018: approximately HK\$24,102,000), representing a decrease of approximately 88.6% as compared with the last corresponding period. The decrease in revenue was mainly due to the decrease in revenue of trading business during the nine months ended 30 September 2019.

Administrative expenses for the nine months ended 30 September 2019 was approximately HK\$43,095,000 (nine months ended 30 September 2018: approximately HK\$56,138,000), representing a decrease of 23.2% as compared with the last corresponding period. The decrease in expenses was mainly due to decrease in consultancy fee, staff costs and charges in dealing of securities.

The Group incurred finance costs of approximately HK\$16,066,000 for the period ended 30 September 2019 (nine months ended 30 September 2018: approximately HK\$19,754,000), which mainly comprised interest on interest-bearing bank borrowing and other borrowings, margin accounts and bonds.

The loss attributable to the owners of the Company for the nine months ended 30 September 2019 aggregated at approximately HK\$77,272,000 (nine months ended 30 September 2018: approximately HK\$135,909,000). Loss for the period was mainly attributable to loss on disposals of financial assets at fair value through profit or loss (“FVTPL”) of approximately HK\$6,812,000, loss arising from changes in fair value of financial assets at FVTPL of approximately HK\$3,847,000, loss on disposal of a land of approximately HK\$15,404,000, staff cost and Directors’ emoluments of approximately HK\$17,570,000 and professional fee of approximately HK\$5,834,000. The basic loss per share for the nine months ended 30 September 2019 was HK33.10 cents (nine months ended 30 September 2018: HK65.73 cents).

Business Review and Outlook

The Group recorded a rental income of approximately HK\$1,071,000 for the nine months ended 30 September 2019 (nine months ended 30 September 2018: approximately HK\$1,989,000) through properties leasing. All the properties are for residential use and have committed tenants normally for two years. Rental income provided steady cash flow over the period. The management will adopt a cautious approach to the property market.

As at 30 September 2019, the Group had financial assets at FVTPL amounted to approximately HK\$11,523,000, representing 2.4% of the total assets of the Group (31 December 2018: approximately HK\$33,294,000). During the period under review, the Group recorded a loss arising from changes in fair values of financial assets at FVTPL of approximately HK\$3,847,000 (nine months ended 30 September 2018: approximately HK\$43,747,000) and a loss on disposals of financial assets at FVTPL of approximately HK\$6,812,000 (nine months ended 30 September 2018: approximately HK\$29,172,000). The Group held certain unlisted instruments classified as financial assets at FVTPL, amounted to approximately HK\$7,588,000 as at 30 September 2019 (31 December 2018: approximately HK\$7,468,000). The Group will carefully scrutinize the strategy and approach it will adopt for its securities investment business to navigate an increasingly volatile international economic climate.

The Group's loan financing business remains sluggish and difficult as factors such as global tightening credit policies and keen market competition continue to prevail. As compared with the same period last year, the interest income dropped by 5.8% from approximately HK\$1,249,000 to approximately HK\$1,177,000. Although the Group expects its loan financing business to be fraught with challenges, it will continue to adopt a prudent and cautious approach in its operation of this business especially with regard to the selection of prospective customers.

The Group has diversified its revenue stream to tea leaves trading business since 2017. The revenue and operating gain of tea leaves trading business were approximately HK\$492,000 and HK\$305,000 respectively for the nine months ended 30 September 2019 (nine months ended 30 September 2018: approximately HK\$20,864,000 and an operating loss approximately HK\$89,000). The Group will continue to actively consider and source for new products for its trading business that have potential market appeal and reasonable returns.
